METALLURGIA—Index to Volume XLII

Published by the Kennedy Press, 31, King Street West, Manchester, 3

JUNE, 1950—DECEMBER, 1950

A

Aircraft (Service), Corrosion Problems Arising from the Use of Magnesium Alloys in, By L. F. LeBrocq, B.Sc., F.R.I.C., and H. G. Cole, B.Sc., A.R.I.C. 173–175
Alloying Elements, The Use of, in Chilled Iron Rolls. By Archibald Allison 9–13, 63–66
Aluminium Alloys, Outstanding Applications of, ... 116–119
Aluminium, Expansion in the Use of, By Dr. E. G. West, B.Sc., F.I.M. 320–325
Aluminium Industry, The, 1929–1950. By Col. W. C. Devereux, C.B.E. 317–320
Aluminium—7% Magnesium Alloy, The Effect of Surface Finish on the Stress-Corrosion Properties of, By S.E. Hadden, A.I.M., and E. C. W. Perryman, M.A., A.I.M. 392–396
Aluminium, Soldering of 131–133
Aluminium Strip Mill, A Continuous 223–232
Aluminium, Zinc-Rich Solder for, By C. W. Roberts, B.Sc., A.I.M. 55–58

B

Bearings (Tapered, Roller), Steels for, By J. H. Evans, F.I.M... 140–144
Blast Furnace and Ore Preparation Plant 75–77, 85
British Cast Iron Research Association New Buildings and Extensions to Existing Buildings and their Equipment. By Dr. J. G. Pearce, O.B.E. .. 183–184
British Cast Iron Research Association. Opening of Laboratory Extensions 91
British Ceramic Research Association. Report on refractory materials—research on heat insulating materials. By A. E. Dodd, Ph.D., M.Sc., F.R.I.C. 187–188
British Iron and Steel Industry, Progress in the, By a Special Contributor 276–278
British Iron and Steel Industries, Recent Developments in Refractories in the, By W. A. Archibald, B.Sc., Ph.D... .. 175–176
British Iron and Steel Research Association. Report of Some Development Work in Progress 179–182
British Non-Ferrous Metals Research Association. Creep and Fatigue Testing Equipment in the Laboratories. By J. McKeown, D.Sc., M.I.Mech.E., F.I.M. 189–196
British Welding Research Association. Notable Features of the Year's Work 184–185
Brittlement, Avoidance of, (Soldering of Aluminium) .. 131–133

C

Carbon and Low Alloy Steels. By I. M. Mackenzie, B.Sc. .. 282–284
Castings, Steel—Past, Present and Future. By J. F. B. Jackson, B.Sc., A.R.I.C., F.I.M. 285–288
Cast Iron, A Review of the Developments in the Metallurgy of, By J. E. Hurst, D.Met., F.I.M. 289–292
Chilled Iron Rolls, the Use of Alloying Elements in, By Archibald Allison 9–13, 63–66
Coatings and Linings (Protective) of Chemical Plant, Plastics for, By E. E. Halls 376–381
Coke Oven Plant 72–74
Cold-Rolled Non-Ferrous Industry. "That Specification: Master or Servant?" By Thomas B. Crow, Ph.D., M.Sc., F.R.I.C., F.I.M. 14–17, 59–63
Cold-Working of Metals, 1929–1950, Progress in the, By W. C. F. Hessenberg, M.A., F.I.M. 334–336
Contamination (Surface), The Influence of, on the Corrosion of Magnesium Manganese Sheet. By L. Rakowski, Inz. Chem. (Warsaw) 362–366
Continuous Aluminium Strip Mill, A 223–232
Conveying (Methods of) in Electric Furnaces. By James McDonald 133–135
Co-operative Research Activities. Reports of Research and Development by British Associations 179–196
Copper and Copper Alloys, Technical Progress in 1950. By E. Voce, Ph.D., M.Sc., F.I.M. 382–391
Copper During *Metallurgia's* Lifetime. By E. Voce, M.Sc., Ph.D., F.I.M. 299–302
Corrosion of Magnesium Manganese Sheet, The Influence of Surface Contamination on the, By L. Rakowski, Inz. Chem. (Warsaw) 362–366
Corrosion Problems Arising from the Use of Magnesium Alloys in Service Aircraft. By L. F. LeBrocq, B.Sc., F.R.I.C., and H. G. Cole, B.Sc., A.R.I.C. .. 173–175
Costing and Modern Accounting Methods in the Metal Industries. VII. By S. Howard Withey, F.Comm.A. 20–21
Creep and Fatigue Testing Equipment in the Laboratories. By J. McKeown, D.Sc., M.I.Mech.E., F.I.M. 189–196
Creep of a Nominally Isotropic Magnesium Alloy at Normal and Elevated Temperatures Under Complex Stress Systems. By A. E. Johnson M.Sc., M.Sc.Tech., A.M.I.Mech.E. 249–262

D

Dome of Discovery, The—Outstanding Applications of Aluminium Alloys 115–117
Dyson-Express 100-Seater Semi-Trailer Coach—Outstanding Applications of Aluminium Alloys 118–119

E

Education, Higher Technological, By G. Tolley, M.Sc. 18–20
Electric Furnaces, Methods of Conveying in, By James McDonald 133–135
Electric Furnaces. Recent British Developments with (The Use of Oxygen in Steelmaking) .. 29–32
European Trends in General Galvanising 233–234

F

Fatigue and Creep Testing Equipment in the Laboratories. By J. McKeown, D.Sc., M.I.Mech.E., F.I.M. 189–196
Finishing (Metal) Since 1929, Progress in, By S. Wernick, Ph.D., M.Sc., F.R.I.C., F.I.M. 339–344
Forged D.T.D. 364A and R.R. 59, Tensile Tests at Elevated Temperatures on, By J. McKeown, D.Sc., F.I.M., M.I.Mech.E. 92–96
Foundry (Iron) Progress, Twenty-One Years of, By J. Blakiston, M.I.G. Mech.E. .. 344–346
Galvanising, General, European Trends in.. 233–234
Gases in Steel. Sir Andrew McCance (Edward Williams' Lecture, Institute of British Foundrymen—Annual Conference) 35–36
Gas Turbines (Marine), The Problem of Materials for .. 1
Grey Ironfounding Productivity Report, Conference on Technical Aspects 222, 235–237

H

Hardness Testing, High Temperature, Some Recent Russian Work 207–208
Heat Treatment, Progress in, in the last Twenty-One Years. By P. F. Hancock, B.A., F.I.M. 329–333
High Temperature Alloys Based on Titanium Carbide. By E. M. Trent, M.Met., Ph.D., A. Carter, M.A., A.I.M., and J. Bateman, B.Sc., A.I.M. .. 111–115
High Temperature Hardness Testing. Some Recent Russian Work 207–208

I

Industrial Finishes Exhibition 135–139, 145
Iron and Steel Industry (British), Progress in the, By a Special Contributor 276–278
Iron and Steel Industry, Plant Development and Progress in the, By A. G. Robiette, M.Sc., F.I.M., and G. L. Thomas, M.Sc., F.I.M. 67–71

Page

Iron and Steel Institute :
Special Meeting in Glasgow 197–201
Autumn General Meeting .. 355–360
Iron Foundry Progress, Twenty-One Years of, By J. Blakiston, M.I.Mech.E. 344–346

L

Low Alloy and Carbon Steels, By I. M. Mackenzie, B.Sc. .. 282–284

M

Magnesium and Magnesium Alloys, 1929–1950. By F. A. Fox, D.Sc., M.Sc., F.I.M. 325–328, 333
Magnesium Alloys, Corrosion Problems Arising from the Use of, in Service Aircraft. By L. F. LeBrocq, B.Sc., F.R.I.C., and H. G. Cole, B.Sc., A.R.I.C. 173–175
Magnesium Alloy (Nominally Isotropic) the Creep of a, at Normal and Elevated Temperatures Under Complex Stress Systems. By A. E. Johnson, M.Sc., M.Sc.Tech., A.M.I.Mech.E. 249–262
Magnesium Manganese Sheet, The Influence of Surface Contamination on the Corrosion of, By L. Rakowski, Inz. Chem. (Warsaw) 362–366
Marine Gas Turbines 1, 22–27
Mechanism of Sintering, The, By J. P. Roberts, M.A., B.Sc. 123–130
Metal Finishing Since 1929, Progress in, By S. Wernick, Ph.D., M.Sc., F.R.I.C., F.I.M. 339–344
Metallurgy of Cast Iron, A Review of the Developments in the, By J. E. Hurst, D.Met., F.I.M. 289–292
Metals and Alloys (Rapid Oxidation of) in the Presence of MoO_3. By G. W. Rathenau and J. L. Meijering 167–172
Molybdenum and Wolfram, Tantalum-rich Alloys with, Some Properties of, By Rupert H. Myers, M.Sc., Ph.D. 3–9
MoO_3 Rapid Oxidation of Metals and Alloys in the Presence of, By G. W. Rathenau and J. L. Meijering 167–172

N

National Physical Laboratory, Fundamental Metallurgical Research in Progress. By N. P. Allen, D.Sc., M.Met. .. 186–187
Nickel and Nickel Alloys, A Review of Progress since 1929. By L. B. Pfeil, O.B.E., D.Sc. 302–307
Nickel Industry in 1950 354
Non-Ferrous Metals Industry, Changes in the, By William H. Henman 297–299
Non-Ferrous Metals Industry, Price Levels in the 53
Northern Aluminium Company's New Continuous Strip Mill at Rogerstone 223–232

O

Ore Preparation and Blast Furnace Plant 75–77, 85
Oxidation (Rapid) of Metals and Alloys in the Presence of MoO_3. By G. W. Rathenau and J. L. Meijering 167–172
Oxygen (The Use of) in Steelmaking 29–32

P

Page

Pametrada Research Station .. 22–27
Plant Development and Progress in the Iron and Steel Industry. By A. G. Robiette, M.Sc., F.I.M., and G. L. Thomas, M.Sc., F.I.M. 67–71
Plastics for Protective Coatings and Linings of Chemical Plant. By E. E. Halls. 376–381
Powder Metallurgy, Problems in, By H. W. Greenwood 176–178
Powder Metallurgy, Twenty-One Years of, By H. W. Greenwood 336–338
Precious Metals, Progress in the, By J. C. Chaston, Ph.D., A.R.S.M., A.Inst.P., F.I.M... 310–313
Pressed Metal Industry, The, .. 109–110
Production Engineering Research Association—Its Growing Importance to Industry. By Dr. D. F. Galloway, Wh.Sch., M.I.Mech.E.. M.I. Prod.E., A.M.I.E.E., B.Sc.Hons., M.Inst.Pet. 239–244
Protective Coatings and Linings of Chemical Plant, Plastics for, By E. E. Halls 376–381

R

Rapid Oxidation of Metals and Alloys in the Presence of MoO_3. By G. W. Rathenau and J. L. Meijering 167–172
Raw Materials Problem 353
Recuperative Furnaces. Use of Silicon Carbide Tubes 202–203
Refractories, Recent Developments in, in the British Iron and Steel Industries. By W. A. Archibald, B.Sc., Ph.D.. .. 175–176
Refractories, Twenty-One Years Progress in, By J. H. Chesters, D.Sc.Tech. 293–296
Refractory Materials, Developments in 119–122
High Temperature Insulating Bricks 120
High Thermal Conductivity Refractories 120–121
Blast Furnaces 121
Open Hearth Furnaces 121
Electric Arc Furnaces 121–122
Re-heating Furnaces and Soaking Pits 82–85
Research. Pametrada Research Station 22–27
Research Work and Practice .. 221
Rogerstone, Modern Production Methods at 223–232
Rolling Mills and Presses 86–90
Rolls (Chilled Iron). The Use of Alloying Elements in, By Archibald Allison 9–13, 63–66

S

Science and Progress 165
Sheet and Strip Stainless Steel, Recent Production in the Production and Fabrication of .. 367–371
Sintering, The Mechanism of, By J. P. Roberts, M.A., B.Sc. 123–130
Slabbing Mill (The New 42-in.) at Shotton 397–399
Soaking Pits and Re-heating Furnaces 82–85
Soldering of Aluminium 131–133
Solders and Soldering: Some Recent Advances. By H. C. Watkins, L.I.M. 372–376
Solder (Zinc-Rich) for Aluminium. By C. W. Roberts, B.Sc., A.I.M. 55–58

Page

Special Steels, Twenty-One Years of Progress in, By D. A. Oliver, M.Sc., F.I.M., F.Inst.P., and J. S. Bristow, B.Sc. .. 279–282
Specification (That): Master or Servant? By Thomas B. Crow, Ph.D., M.Sc., F.R.I.C., F.I.M. 14–17, 59–63
Stainless Steels, Recent Progress in the Production and Fabrication of 367–371
Steel and Iron Industry (British), Progress in the, By a Special Contributor 276–278
Steel Castings—Past, Present and Future. By J. F. B. Jackson, B.Sc., A.R.I.C., F.I.M. 285–288
Steelmaking Plant Developments 78–81
Steelmaking, the Use of Oxygen in 29–32
Steels for Tapered Roller Bearings. By J. H. Evans, F.I.M. 140–144
Steels, Special, Twenty-One Years of Progress in, By D. A. Oliver, M.Sc., F.I.M., F.Inst.P., and J. S. Bristow, B.Sc. .. 279–282
Steels, Stainless, Recent Progress in the Production and Fabrication of 367–371
Stress-Corrosion Properties of Aluminium—7% Magnesium Alloy, the Effect of Surface Finish on the—By S. E. Hadden, A.I.M., and E. C. W. Perryman, M.A., A.I.M. 392–396
Stress Systems (Complex), The Creep of a Nominally Isotropic Magnesium Alloy at Normal and Elevated Temperatures Under, By A. E. Johnson, M.Sc., M.Sc.Tech., A.M.I.Mech.E. 249–262
Strip and Sheet Stainless Steel, Recent Progress in the Production and Fabrication of .. 367–371
Strip Mill, A Continuous Aluminium 223–232
Surface Contamination (The Influence of) on the Corrosion of Magnesium Manganese Sheet. By L. Rakowski, Inz Chem. (Warsaw) 362–366
Surface Finish, The Effect of, on the Stress-Corrosion Properties of Aluminium—7% Magnesium Alloy. By S. E. Hadden, A.I.M., and E. C. W. Perryman, M.A., A.I.M. .. 392–396

T

Tantalum-rich Alloys with Wolfram and Molybdenum, Some Properties of, By Rupert H. Myers, M.Sc., Ph.D. 3–9
Tapered Roller Bearings, Steels for, By J. H. Evans, F.I.M... 140–144
Technological Education, Higher, By G. Tolley, M.Sc. 18–20
Telescopic Gangways for New Ocean Terminal—Outstanding Applications of Aluminium Alloys 117–118
Tensile Tests at Elevated Temperatures on Forged D.T.D. 364A and R.R. 59. By J. McKeown, D.Sc., F.I.M., M.I.Mech.E. 92–96
Tin and Its Alloys. By John Ireland, M.C., B.Sc., Wh.Ex. 307–310
Titanium Carbide, High Temperature Alloys Based on, By E. M. Trent, M.Met., Ph.D., A. Carter, M.A., A.I.M., and J. Bateman, B.Sc., A.I.M. .. 111–115

Page

Tools and Techniques during the past 21 years. By H. J. Axon, D. Phil., and K. M. Entwistle, Ph.D., M.Sc. 349–352
Tubes made from Special Refractories, Standardisation of Sizes of 818

W

Welding, Progress in, 1929–1950. By A. J. Hipperson, B.Sc. (Eng.), and R. G. Burt, O.B.E., B.Sc.(Eng.) 347–349
Wolfram and Molybdenum, Tantalum-rich Alloys with, Some Properties of. By Rupert H. Myers, M.Sc., Ph.D. 3–9

Z

Zinc Industry, 21 Years of Progress in the 313–316, 352
Zinc-rich Solder for Aluminium. By C. W. Roberts, B.Sc., A.I.M. 55–58

CORRESPONDENCE

Argon Arc Melting Technique. H. W. Worner 267
Fracture Gremlin. Ralph Erskine 51
Perchloric Acid: Is it Poisonous? G. H. Osborn, G. Croall 164
Reproducibility of Analytical Results. S. E. Hermon, E. C. Mills 220
That Specification: Master or Servant? C. G. Williams, P. Lovett 144–145
The Use of Gelatine in Determining Bismuth Contents by Electrolytic Methods. G. H. Osborn, C. Goldberg 164

REVIEWS

British Iron and Steel Federation's Statistical Year Book for 1948. Part II 248
Canning Technology. By A. J. Howard, M.A., A.R.I.C., with Foreword by Sir Jack Drummond, D.Sc., F.R.S. 97–98
Conference on Foundry Steel Melting. B.I.S.R.A. 150
Electron Microstructure of Steel. First Progress Report of Sub-Committee XI to A.S.T.M. Committee E.4 on Metallography 400
Elektrosstahl-Erzeugung. Dr. Franz Sommer and Dr. Hans Pollock 247–248
Engineering Metallurgy. Alexander P. Gwiazdowski .. 247
Engineering Structures. Vol. 11 of the Colston Papers 28
Galvanising (Hot-Dip). Heinz Bablik 399–400
Metallurgical Applications of the Electron Microscope. (Symposium) 205
Metal Statistics, 1950. N. J. Langer 206
Protective Coatings for Metals. J. W. Gailer and E. J. Vaughan 149
Raw Materials of the Iron and Steel Industry. A. K. Osborne 248
Recommendations for the Design and Fabrication of Arc Welded Structural Steelwork, Built-Up Girders and Compression Members. British Welding Research Association 150
Statistiques. Mierais et Métaux, S.A. 205

Page

Specifications for Heavy Duty Electric Overhead Travelling Cranes for Use in Iron and Steel Works. B.I.S.R.A. .. 149–150
Spectrophotometry. National Bureau of Standards 160
The Formulation of Anti-Corrosive Compositions for Ship's Bottoms and Underwater Service on Steel. First Report of Joint Technical Panel N/P2—Paints for Underwater Service in Steel 292
The Machining and Manipulation of Stainless Steels. W. F. Walker 248
The Properties of Metallic Material at Low Temperatures. P. Litherland Teed .. 205
The Refining of Non-Ferrous Metals. Symposium Proceedings. Institute of Mining and Metallurgy 148–149
The Rolling of Metals. Dr. L. R. Underwood, D.Sc., M.I.Mech.E. 204–205
Thermodynamics of Dilute Aqueous Solutions. M. J. N. Pourbaix 28
Tin: Its Mining, Production, Technology and Applications. By C. L. Mantell 97
Welding Dictionary. French-German-Spanish-English. Compiled and edited by R. N. Thompson and G. Haim .. 205
World Iron and Steel Resources and their Utilisation. Published by United Nations Secretariat 288

RECENT DEVELOPMENTS IN MATERIALS, TOOLS AND EQUIPMENT

An Ingenious Method for Guarding Four Sides of a Press—Radiovisor Parent, Ltd. .. 209–210
Charging Sheet Annealing Furnaces, A New Machine for—Wellman Smith Owen Engineering Corporation, Ltd. .. 33–34
Bunker Level Control. Radiovisor Parent, Ltd. 147
Composite Forgings for Die Manufacture. Composite Forgings, Ltd. 146–147
New H.F. Heating Generator—General Electric Co., Ltd. .. 210
New Lincoln Electrodes—Lincoln Electric Co., Ltd. 147
The Murex Type H500 Electrode Holder—Murex Welding Processes, Ltd. 209
Twin Chamber Coil Annealing Furnace—G.W.B. Electric Furnaces, Ltd. 34
Vertical Broaching Machines—The Lapointe Machine Tool Co., Ltd. 210
Wire Rope Parting Machine—British Insulated Callender's Cables, Ltd. 209

LABORATORY METHODS

A

Abrasion, The Electrolytic Polishing of Zirconium and its Application to a Study of the Effects of, Upon the Structure of the Metal. By P. A. Jacquet 268–270
Apparatus for the Measurement of Creep under Fluctuating Stress. By W. R. Tyldesley, M.Sc. 45–48

Page

Arc-Furnace (A Laboratory) for Melting Alloys Containing the Refractory Transition Metals. By G. A. Geach, M.Sc., Ph.D., F.I.M., and D. Summers-Smith, B.Sc., A.R.T.C. 153–156

B

Bismuth (Rapid Determination of) in Bismuth-Tin and Bismuth-Tin-Cadmium Alloys. By C. Goldberg 108

C

Chemical Analysis of Tin Bronzes. By J. W. Price, B.Sc., Ph.D., F.R.I.C. 263–267
Colorimetric Determination of Phosphorus in Phosphor Copper. By George Norwitz and Irwin Norwitz 219–220
Controller (Electronic) for use with High Temperature Creep Testing Equipment. By F. Gartside, A.Eng. 211–216
Creep Laboratory, Small Stress-Rupture, Design and Construction of Equipment for a, By F. C. Child, M.Sc., A.I.M. 37–44
Creep Testing Equipment, High Temperature; Electronic Controller for use with, By F. Gartside, A.Eng. 211–216
Creep under Fluctuating Stress, Apparatus for the Measurement of, By W. R. Tyldesley, M.Sc. 45–48

D

Devices (Useful) in the industrial Chemical Laboratory. By W. Stross 105–107, 158–160
Dimensional Stability of Gauges by an X-Ray Diffraction Method, A Test for the, By C. Wainwright, M.Sc., A.Inst.P., and L. W. Nickols, B.Sc.(Eng.), A.M.I.Mech.E., A.M.I.Prod.E. 401–404
Electrolytic Polishing of Zirconium (The) and its Application to a Study of the Effects of Abrasion Upon the Structure of the Metal. By P. A. Jacquet 268–270
Electronic Controller for use with High Temperature Creep Testing Equipment. By F. Gartside, A.Eng. 211–216
Equipment (Design and Construction of) for a Small Stress-Rupture Creep Laboratory. By F. C. Child, M.Sc., A.I.M. 37–44

G

Gauges, A Test for the Dimensional Stability of, by an X-Ray Diffraction Method. By C. Wainwright, M.Sc., A.Inst.P., and L. W. Nickols, B.Sc.(Eng.), A.M.I.Mech.E., A.M.I.Prod.E. 401–404

H

High Temperature Creep Testing Equipment, Electronic Controller for use with, By F. Gartside, A.Eng. 211–216

I

Indicators (Some New) in Various Titrimetric Processes. By A. J. Nutten, B.Sc., A.R.I.C. 216–219, 271–273, 407–410

L

Page

Laboratory Arc-Furnace, A, for Melting Alloys Containing the Refractory Transition Metals. By G. A. Geach, M.Sc., Ph.D., F.I.M., and D. Summers-Smith, B.Sc., A.R.T.C. 153–165
Laboratory Methods and Apparatus, Developments in, By H. J. Axon, D.Phil., and K. M. Entwistle, Ph.D., M.Sc. .. 349–352
Low Alloy Steel Standards for Spectrographic and Photometric Analysis 104

M

Metallurgical Analysis, A Note on Precision in, By Ernest H. S. van Someren, B.Sc., A.Inst.P. 52
Microchemical Devices, Miscellaneous. By J. T. Stock and P. Heath 44
Microchemistry Congress, First International, at Graz 161–163
Micro-Conductometric Titration, Simple Apparatus for, By J. T. Stock 48–51

P

Perchloric Acid Solutions, The Precipitation of Silver Chloride from, By E. C. Mills, A.R.I.C., and S. E. Hermon 157–158
Perchloric Acid, The Application of, to the Analysis of Steelworks Materials. By G. Croall 99–104
Phosphorus in Phosphor Copper, Colorimetric Determination of, By George Norwitz and Irwin Norwitz 219–220
Photometric and Spectrographic Analysis, Low Alloy Steel Standards for. 104
Precipitation (The) of Silver Chloride from Perchloric Acid Solutions. By E. C. Mills, A.R.I.C., and S. E. Hermon .. 157–158
Precision in Metallurgical Analysis, A Note on, By Ernest H. S. van Someren, B.Sc., A.Inst.P. 52

R

Rapid Determination of Bismuth in Bismuth-Tin and Bismuth-Tin-Cadmium Alloys. By C. Goldberg 108
Refractory Transition Metals, A Laboratory Arc-Furnace for Melting Alloys Containing the, By G. A. Geach, M.Sc., Ph.D., F.I.M., and D. Summers-Smith, B.Sc., A.R.T.C. 153–156

S

Silicon Bronze Hardeners, Determination of Silicon, Copper and Iron in, By George Norwitz and Irwin Norwitz 405
Silver Chloride, The Precipitation of, from Perchloric Acid Solutions. By E. C. Mills, A.R.I.C., and S. E. Hermon .. 157–158
Spectrographic and Photometric Analysis, Low Alloy Steel Standards for 104
Standards (Low Alloy Steel) for Spectrographic and Photometric Analysis 104
Steelworks Materials, The Application of Perchloric Acid to the Analysis of, By G. Croall .. 99–104

Page

Stress (Fluctuating), Apparatus for the Measurement of Creep under, By W. R. Tyldesley, M.Sc. 45–48
Stress-Rupture Creep Laboratory (Small), Design and Construction of Equipment for a, By F. C. Child, M.Sc., A.I.M. .. 37–44
Sulphide Precipitation by the Pressure Method. By J. T. Stock and P. Heath 44

T

Tin Bronzes, Chemical Analysis of, By J. W. Price, B.Sc., Ph.D., F.R.I.C. 263–267
Titration (Micro-Conductometric), Simple Apparatus for, By J. T. Stock 48–51
Titrimetric Processes (Various), Some New Indicators in, By A. J. Nutten, B.Sc., A.R.I.C. 216–219, 271–273, 407–410

X

X-Ray Diffraction Method, A Test for the Dimensional Stability of Gauges by an, By C. Wainwright, M.Sc., A.Inst.P., and L. W. Nickols, B.Sc.(Eng.), A.M.I.Mech.E., A.M.I.Prod.E. 401–404

Z

Zirconium, The Electrolytic Polishing of, and Its Application to a Study of the Effects of Abrasion Upon the Structure of the Metal. By P. A. Jacquet 268–270

LABORATORY METHODS
NEW EQUIPMENT

Electrolysis, Corrosion and Cathodic Protection Tester. M. C. Miller 273–274
Micro-chemical Balance (New) shown at Graz. L. Oertling, Ltd. 107
Recording Manometer. Fielden (Electronics), Ltd. 274

METALLURGICAL DIGEST

High Temperature Steels in Steam Plant Practice. J. Glen, B.Sc., A.R.T.C., F.I.M. 152
Nodular Gray Iron Compared with Other Cast-Ferrous Metals. G. Vennerholm, H. Bogart and R. Melmoth .. 151–152
Vacuum-Fusion Apparatus .. 163–164

BUSINESS NOTES & NEWS

Achema Convention 32
A.D.A. Education Service .. 203
Advisory Panels (New) on Efficient Production Practice .. 115
Alumina Production in Jamaica 178
Anniversary Issue, This 21st .. 275
Awards 232, 246, 354, 361
Birmingham University, Graduate Courses at 110
Bradley (Darlaston), Ltd. .. 98
British Cast Iron Research Assn. 115
British Constructional Steelwork Association 145
British Rolling Plant for Norway 206
British Welding Electrodes to be Manufactured in Australia .. 360

Page

Bureau of Analysed Samples, Ltd. 406
Chemical-proof Clothing, Comfortable. R.F.D. Co., Ltd. .. 361
Coke Oven Plant, New 360
Design and Research Centre for the Gold, Silver and Jewellery Industries 410
Farnborough Air Show 166
Furnace for South Africa .. 366
Galvanizers Visit U.S.A. 182
Gas Council, The, ... 196
Gas Turbine Technology, School of 130, 262
Girdlestone glandless diaphragm Pump 238
Hard Metal, A Film on 238
Head Wrightson Aluminium, Ltd. 210
Hearth Breakout at Scunthorpe 122
H.F. Furnace for the Norwegian Government 17
High Speed Copying Developer 404
High-Temperature Materials Symposium 360
I.M.M. Abstracts 130
Industry and the Universities .. 96
Institute of British Foundrymen 35–36
Institute of Metals 354
Institution of Metallurgists .. 54
Jamaica, Alumina Production in 178
Kirkstall Forge Engineering, Ltd. 98
Liverpool Metallurgical Society 13, 210
